

Juandiego Saavedra Ordonez

Hamilton, Ontario | (365) 883 2509 | jdiego1906@gmail.com

Professional Summary

Data Scientist and Engineering Physicist with strong analytical and problem-solving skills, experienced in artificial intelligence, data modeling, and signal processing. Proficient in Python, SQL, and Power BI to transform complex data into actionable insights across healthcare, engineering, and technology domains. Skilled in developing predictive models, optimizing processes, and supporting data-driven decision-making.

Technical Skills

Programming: Python, SQL, MATLAB, R.

Data Science: Machine Learning, Deep Learning, Predictive Modeling, Statistical Analysis, Feature Engineering, EDA, Data Cleaning, Data Analysis.

Libraries: NumPy, Pandas, Scikit-learn, TensorFlow, PyTorch, XGBoost, Seaborn, Plotly

Data Visualization: Power BI, Tableau.

Tools & Systems: Excel (Macros, Advanced Formulas, Power Query), Jupyter, Colab, VS Code.

Soft Skills: Analytical thinking, problem solving, teamwork, attention to detail, adaptability, time management, eagerness to learn.

Languages: English (Advanced), Spanish (Native)

Professional Experience

Jr. Line Cook — The Mule | Hamilton, Ontario | Jan 2025 – Dec 2025

- Maintained efficiency and teamwork under high-pressure conditions during peak hours.
- Contributed to consistent food quality by following standardized preparation processes and safety protocols.
- Developed a mobile application to automate ingredient scaling for guacamole preparation using input based calculations. The solution reduced preparation time by 10%.

Sr. Line Cook — The Mule | Hamilton, Ontario | Dec 2025 – Present

- Lead and coordinate line operations during high-volume service, ensuring workflow efficiency and consistent quality standards.
- Develop and monitor Cost of Goods Sold plans to support profitability targets and reduce operational waste.
- Analyze ingredient usage patterns and portion control to improve cost efficiency and inventory accuracy.
- Organize and mentor kitchen staff, fostering teamwork, accountability, and performance consistency.

Science tutor — Freelance | Popayan, Colombia | Jun 2019 – Nov 2024

- Delivered tailored instruction in physics, mathematics, and chemistry for university-bound students.
- Fostered analytical reasoning and problem-solving skills through customized study plans.

Jr. Data Analyst — Home Health | Popayan, Colombia | Aug 2020 – Sep 2021

- Streamlined data entry workflows, saving about 12 staff hours weekly.
- Supported database migration and workflow optimization for health data management.
- Generated and maintained detailed patient treatment reports and performance statistics for executive review and strategic decision-making.

Education

BSc in Engineering Physics (With Distinction) - Universidad del Cauca | Colombia | Dec 2024

- Graduated Cum Laude (GPA: 4.5/5)
- Thesis: 'Blood pressure estimation using physiological signals and AI algorithms'
- Thesis results were presented at the Universities of Göttingen and Augsburg (Germany).
- Developed and validated an AI methodology for continuous, non-invasive blood pressure estimation from physiological signals (ECG, PPG, HRV, and clinical data).
- Evaluated multiple ML and DL architecture, including ensemble methods (XGBoost, GBM, DRF) and neural networks (RNN, CNN), achieving MAE = 5.87 mmHg / RMSE = 8.04 mmHg (Systolic Blood Pressure) and MAE = 3.54 mmHg / RMSE = 4.91 mmHg (Diastolic Blood Pressure), meeting Grade A–B standards of the British Society of Hypertension.
- Published a peer-reviewed article: 'Analysis of Electrocardiographic Signals to Assess Heart Rate Variability under Surgical Context: A Methodological Proposal.', 2024.

Certificate in Artificial Intelligence— Universidad Tecnológica de Pereira | Colombia | Nov 2024

- Final project: 'Prostate cancer detection using supervised machine learning models'
- Applied image preprocessing and segmentation techniques to extract biomarkers, achieving 90% classification accuracy in prostate cancer detection.

Google Advanced Data Analytics Professional Certificate

- Applied advanced statistical analysis, regression modeling, hypothesis testing, and machine learning techniques.
- Developed end-to-end data projects including data cleaning, EDA, model validation, and business insight communication.
- Strengthened skills in Python, data storytelling, and stakeholder-focused reporting.

Professional Certificates (Udemy)

- Total SQL (2024)
- Power BI for Business Intelligence (2024)
- Agile Fundamentals (2024)
